

Healthcare at Wanake

- Campers may only attend with a completed, signed health form.
- Health care is provided through the on-site health director and all staff have training in their health care responsibilities. The staff follows the Camp Doctor's standing orders for minor illness & injury, including first aid and over-the-counter medications.
- A parent/guardian will be contacted when the Health Director determines that a camper requires treatment outside the camp's Health Center. The camp will attempt to contact a parent/guardian prior to transporting campers but will not delay urgent care if a parent/guardian cannot be reached. A parent/guardian will receive notification if their camper receives any injuries or contracts any illnesses which may require further treatment/follow-up care after camp.
- All medications are kept locked in the Health Center or a medical lock box and are administered by medical staff. The Health Director monitors campers to make sure medications are taken as prescribed and that health care needs are met.

All medications (prescription & non-prescription) are collected by the Health Staff at check-in. All medication, whether prescription or over-the-counter (including vitamins), must be in the original container labeled with the camper's name or bubble packed by a pharmacy.

Meeting COVID-19 Challenges

The Wanake staff is preparing a summer camp program that meets Wanake's vision of sharing God's love and will keep all those involved having fun, while managing the challenges that COVID-19 brings.

Approximately one month before camp, you will receive communication about the specifics of what Wanake will be asking campers and their families to do to manage the risk of COVID-19 at camp. Until then, here are some important notes related to COVID-19 and summer camp.

- Campers/Households at High Risk – If your child is at a higher risk for complications related to COVID-19, or lives with someone who is at higher risk, please make a careful and informed decision and consult your physician before sending your camper to camp this summer.
- Wanake will be following the guidance for summer camp operations of national and local authorities. See examples in the next column.
- Wanake will be following all state mandates and rules.
- There will be an even more thorough schedule for disinfection of sleeping, eating, program and restroom areas at camp in 2021.
- Wanake's cancellation policy and waitlist procedures have been altered to meet the needs of our families, as we function in this pandemic. See page 4 for details.

Medical, Behavioral, Dietary and Social/Emotional Needs at Wanake

Please notify Wanake now, if your camper has any of these needs. This will give Wanake staff and you family time to plan and prepare together for an excellent experience.

- **Medical Needs or Routines**
- **Dietary Requirements** (food allergies, gluten-free diet, vegetarian/vegan, Lactose intolerant, etc.)
- **Social-Emotional Needs**
- **Behavioral Needs or a Behavioral Plan**
- **Other Needs** that may affect your camper's adjustment to camp

Contact Wanake at info@campwanake.org or 330-756-2333.

Wanake is able to accommodate special medical, behavioral, dietary and social/emotional needs for which the camper is able to provide some self-care and self-regulation with a pre-arranged plan.

Wanake can provide a balanced diet for those with special diets and/or food allergies (gluten-free, vegetarian/vegan, lactose intolerant, etc.) with a pre-arranged plan.

If a camper is on medication or follows a behavioral plan during the school year, Wanake recommends that the camper continue the same medication or behavioral routine while at camp. Part of the fun of camp is adapting to a new environment and a new daily routine. Since campers experience so many changes it is generally not a good idea to alter normal medication or behavioral routines during a stay at camp. Wanake asks that campers on psychotropic medication who have had a change in medication or dosage within three months prior to their arrival at camp notify Wanake.

Camp Plans in Light of COVID-19

- Outdoors – We will be outdoors for most of our day.
- Mask wearing – We will be wearing masks when needed.
- Small Groups – In the Wanake tradition, we will be in our small groups throughout our time at camp.
- Social Distancing – We will practice keeping a safe distance from each other as we enjoy camp.
- Large Groups – We are minimizing activities that gather us in large groups. When gathered in larger settings, we will remain in our small groups and keep at a safe distance.
- Families will be asked to monitor camper health ahead of camp.
- If a camper exhibits symptoms of COVID-19, they will be removed from the camp population and a parent/guardian will be contacted to pick them up as soon as they are able.
- Wanake reserves the right to change COVID-19 practices and procedures based on the latest guidance and recommendations from public health professionals, the American Camp Association, or the CDC.
- Even with Wanake's best efforts, someone may contract COVID-19 while at camp and spread it to someone else at camp. A camper could return home as an asymptomatic carrier of COVID.
