

East Ohio Summer Camp 2021

Pre-arrival Health Screening:

The safety of your camper and of our staff members is the top priority for East Ohio Camps.

To prevent the spread of COVID-19 and reduce the potential risk to your camper, other campers and our staff members, we ask your help in completing this fourteen day pre-arrival health monitoring. This pre-arrival health monitoring is a best practice recommended by the Ohio Department of Health. Thank you for your diligence in monitoring the health of your camper and helping to keep summer camp a safe environment.

Prior to Arrival	Date	Temperature °F	Describe Any Symptoms of Illness	COVID – 19 Symptoms
14 days prior				<ul style="list-style-type: none"> • Cough • Shortness of breath • Difficulty breathing • Fever • Chills • Muscle Pain • Sore throat • New loss of taste or smell • Nausea • Vomiting • Diarrhea

12 days prior				
11 days prior				
10 days prior				
9 days prior				
8 days prior				
7 days prior				
6 days prior				
5 days prior				
4 days prior				
3 days prior				
2 days prior				
1 day prior to arrival				

My signature indicates that I completed this health screening daily for 14 days prior to camp and to the best of our ability. I understand that arriving to camp healthy is vital to a healthy camp for all campers and failure to provide this document or complete the onsite screening may be grounds for dismissal.

Signature (parent or guardian): _____ Date: _____

Please present this completed form at camper check-in

Health Screening at Camper Check-in, Summer 2021:

The safety of your camper and of our staff members is the top priority for East Ohio Camps. As the COVID-19 pandemic continues to evolve, the leadership of East Ohio Camps is monitoring the situation closely and will periodically update our ministry operations based on current recommendations from the Local Health Department, the Center for Disease Control, and Ohio guidelines.

To prevent the spread of COVID-19 and reduce the potential risk of exposure to your camper, other campers, and our staff members, we ask your help in monitoring your camper's health for fourteen days prior to arrival at camp. Thank you for your participation.

At camper check-in your camper's temperature will be taken and a parent or guardian will be asked the following questions, in addition to general questions about your camper's health:

- Has anyone in your household had close contact with or cared for someone diagnosed with COVID-19 within the last 14 days?
- Has your camper experienced any cold or flu-like symptoms in the last 14 days (to include cough, shortness of breath, difficulty breathing, fever, chills, repeated shaking with chills, muscle pain, headaches, sore throat, and new loss of taste or smell)?

If the answer is "yes" to any of these questions, your presence on site may not be possible at this time. Arrangements for a future week at summer camp can be discussed with the Camp Director.
